

sizing
chart

Please follow the instructions for foot measurement.*

- 1 Print this page out and make sure that the print option “fit to page” is not selected and “page scaling” is set to “none”.
- 2 Place the sizing chart onto a hard flat surface
- 3 Stand tall with the with the heel at the half circle, read the size after the end of the toe
- 4 Measure both feet and use the highest measurement
- 5 Place your order!

★ The foot size is a guide and is not 100% accurate to every type of shoe or manufacturer as there are always variances in each of the manufacturing processes.

★ Check the cm against a ruler to ensure accurate printing of the chart.

★ Australian sizes are a guide only.
